#### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements that relate to future events, including our future operating results and conditions, our prospects and our future financial performance and condition, all of which are largely based on our current expectations and projections. Known and unknown risks, uncertainties and other factors may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. Moreover, because we operate in a heavily regulated and evolving industry, we may become highly leveraged. We also operate in Macau, a market with intense competition, and therefore new risk factors may emerge from time to time. It is not possible for our management to predict all risk factors, nor can we assess the impact of these factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those expressed or implied in any forward-looking statement. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those expressed or implied in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitation in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, (v) gaming authority and other governmental approvals and regulations, and (vi) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as "may", "will", "expect", "anticipate", "target", "aim", "estimate", "intend", "plan", "believe", "potential", "continue", "is/are likely to" or other similar expressions.

The forward-looking statements made in this quarterly report relate only to events or information as of the date on which the statements are made in this quarterly report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. #### **EXCHANGE RATE INFORMATION**

Although we will have certain expenses and revenues denominated in Patacas, our revenues and expenses will be denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at a rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on June 30, 2015 in New York City for cable transfers in H.K. dollar per U.S. dollar, as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board of the United States, or the Federal Reserve Board, was HK\$7.7513 to US\$1.00. On August 14, 2015, the noon buying rate was HK\$7.7554 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Patacas to U.S. dollars in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Board does not certify for customs purposes a noon buying rate for cable transfers in Patacas.

## FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2014. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this "Financial Condition and Results of Operations" are forward-looking statements.

#### **City of Dreams Second Quarter Results**

For the second quarter of 2015, net revenue at City of Dreams was US\$658.7 million compared to US\$969.2 million in the second quarter of 2014. The decline in net revenue was primarily a result of lower rolling chip revenues and mass market table games revenues.

Rolling chip volume totaled US\$11.1 billion for the second quarter of 2015 versus US\$22.1 billion in the second quarter of 2014. The rolling chip win rate was 2.7% in both quarters ended June 30, 2015 and 2014. The expected rolling chip win rate range is 2.7%–3.0%.

#### **Altira Macau Second Quarter Results**

For the second quarter of 2015, net revenue at Altira Macau was US\$144.1 million compared to US\$181.7 million in the second quarter of 2014. The year-over-year decrease in net revenue was primarily a result of lower rolling chip revenues.

Rolling chip volume totaled US\$6.5 billion in the second quarter of 2015 versus US\$8.3 billion in the second quarter of 2014. The rolling chip win rate was 2.7% in both quarters ended June 30, 2015 and 2014. The expected rolling chip win rate range is 2.7%–3.0%.

In the mass market table games segment, drop totaled US\$166.7 million in the second quarter of 2015, a decrease from US\$196.8 million generated in the comparable period in 2014. The mass market table games hold percentage was 15.9% in both quarters ended June 30, 2015 and 2014.

Gaming machine handle for the second quarter of 2015 was US\$7.7 million.

The year-on-year decrease of US\$8.6 million in net non-operating expenses was primarily due to higher capitalized interest in the current quarter, lower interest charge as a result of the scheduled repayments of the term loan under the 2011 Credit Facilities and increase in other income.

Depreciation and amortization costs of US\$76.9 million were recorded in the second quarter of 2015, of which US\$14.3 million was related to the amortization of our gaming subconcession and US\$5.2 million was related to the amortization of land use rights.

#### Six Months' Results

For the six months ended June 30, 2015, our total net revenue was US\$1.89 billion compared to US\$2.58 billion for the six months ended June 30, 2014. The year-over-year decrease in net revenue was primarily attributable to lower group-wide rolling chip revenues and mass market table games revenues.

Net income for the first six months of 2015 was US\$216.5 million, compared with net income of US\$438.9 million in the comparable period of 2014. The year-over-year decrease in net income was primarily attributable to lower group-wide rolling chip volumes and rolling chip win rate, together with a lower contribution from the mass market table games segment.

#### Liquidity and Capital Resources

We have relied and intend to rely on our cash generated from our operations and our debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be.

As of June 30, 2015, we held unrestricted cash and cash equivalents, bank deposits with original maturity over three months and restricted cash of US\$1,229.9 million, US\$105.0 million and US\$18.7 million, respectively, and HK\$9.75 billion (approximately US\$1.25 billion) of the 2015 Credit Facilities remained available for future drawdown.
