<u>Exhibit No.</u>	<u>Description</u>
Exhibit 99.1	Modification of Employee Share Options

FOR IMMEDIATE RELEASE

### MODIFICATION OF EMPLOYEE SHARE OPTIONS

**MACAU, Monday, March 21, 2016** - Melco Crown Entertainment Limited (the “**Company**”) announced today that on March 18, 2016, its Compensation Committee, acting upon the delegated authority from the Board of Directors, approved a modification of the exercise prices and the vesting schedules of all outstanding employee share options previously granted during the years 2013, 2014 and 2015 pursuant to the Company’s 2011 Share Incentive Plan. Generally, the modification will apply to all active employees with outstanding share options granted during the years 2013, 2014 and 2015, including those unvested, or vested but not yet exercised, share options.

The outstanding share options granted in the relevant years are with exercise prices that are higher than the current market price of the Company’s ordinary shares and, as a result, the Company believes these share options have negative repercussions on employee retention in a highly competitive labor market in the Macau gaming industry. Through the modification, the Company intends to restore the effectiveness of such share options as an incentive and retention tool, including through the resetting and extension of the vesting schedules for the relevant share option awards.

A total of 4,572,234 share options awarded in 2013, 2014 and 2015 have been modified to state an exercise price of US\$5.7567 per share (equivalent to approximately US\$17.27 per American depository share of the Company, each representing three ordinary shares (“**ADS**”), which reflects the closing price of the Company’s ADS on the NASDAQ on March 18, 2016.

The Company has designed the modification so that the relevant share options, including some of the original vested options, will be subject to a new and longer vesting schedule. The number of the Company’s ordinary shares subject to the modified share options and the expiration dates of such modified share options will remain the same as the original options.

The Company currently estimates the incremental share based compensation expense resulting from the modification will be less than US\$300,000 per year over the three year vesting period of the modified share options. These estimates are subject to finalization of the modification calculations and accounting.
