FOR IMMEDIATE RELEASE

Melco Crown Entertainment Announces Fourth Quarter 2010 Earnings

New York, February 22, 2011 — Melco Crown Entertainment Limited (NASDAQ: MPEL), a developer and owner of casino gaming and entertainment resort facilities focused on the Macau market, today reported its unaudited financial results for the fourth quarter and year ended December 31, 2010.

Net revenue for the fourth quarter of 2010 was US\$773.7 million, representing an increase of approximately 93% from US\$400.2 million reported in the quarter ended December 31, 2009. Adjusted EBITDA⁽¹⁾ was US\$133.8 million for the fourth quarter of 2010, as compared to Adjusted EBITDA of US\$2.7 million in the fourth quarter of 2009. The year-over-year improvement in net revenue and Adjusted EBITDA resulted primarily from significantly improved operating performance at City of Dreams and Altira Macau.

On a U.S. GAAP basis, Melco Crown Entertainment recorded net income for the fourth quarter of 2010 of US\$16.3 million, or US\$0.03 per ADS, compared with a net loss of US\$89.7 million, or a loss of US\$0.17 per ADS, in the fourth quarter of 2009. The improvement in bottom-line results was driven by the year-over-year improvement in the operating performance at City of Dreams and Altira Macau, partially offset by increased depreciation and amortization expense primarily associated with the opening of The House of Dancing Water at City of Dreams and higher net interest expense related to the refinancing of approximately US\$600 million of bank debt through the issuance of a high yield bond in May 2010.

Mr. Lawrence Ho, Co-Chairman and Chief Executive Officer of Melco Crown Entertainment commented, "We are pleased to report another solid quarter of operating results, driven by continued improvements in the fundamentals of our business. Our fourth quarter results demonstrate our success in driving operating leverage and in improving the profitability of our portfolio of assets."

“Our mass market table games business continues to grow and has set a new company record for table drop and gross gaming revenue in the fourth quarter of 2010. Similarly, our rolling chip segment remains strong with gaming volume in the fourth quarter of 2010 setting a new company record.

“The House of Dancing Water continues to sell out and drive incremental visitation and expenditures at City of Dreams. We look forward to the continued success of this ground-breaking show, as well as the opening of additional guest amenities in 2011.”

City of Dreams 4Q Results

For the quarter ended December 31, 2010, net revenue at City of Dreams was US\$488.7 million compared to US\$237.6 million in the fourth quarter of 2009. City of Dreams generated Adjusted EBITDA of US\$97.7 million in the fourth quarter of 2010 compared to US\$22.2 million in the fourth quarter of 2009. The year-over-year improvements in both net revenue and Adjusted EBITDA were driven by increased gaming volume and win rates in the fourth quarter of 2010, as compared with the same measures in the fourth quarter of 2009.

Rolling chip volume totaled US\$15.4 billion for the fourth quarter of 2010, up 65% from US\$9.3 billion in the fourth quarter of 2009, and the rolling chip hold percentage was 2.9% in the fourth quarter of 2010 versus 2.4% in the fourth quarter of 2009. The expected rolling chip hold percentage range is 2.7%-3.0%.

Mass market (non rolling chip) table games drop increased 35% to US\$572.5 million compared with US\$423.3 million in the fourth quarter of 2009. The mass market win rate was 22.0% in the quarter under review and increased from 17.2% in the same period last year. At City of Dreams, we expect our mass market table games hold percentage to range from 20%-22%.

Slot handle for the quarter ended December 31, 2010 was US\$513.5 million, up 38% from US\$372.8 million generated in the quarter ended December 31, 2009.

Total non-gaming revenue at City of Dreams in the fourth quarter of 2010 was US\$47.6 million, up from US\$22.8 million in the fourth quarter of 2009. Occupancy per available room in the fourth quarter of 2010 was 87% versus 79% in the fourth quarter of 2009. The average daily rate (ADR) in the fourth quarter of 2010 was US\$166 per occupied room, which compares with US\$152 in the fourth quarter of 2009.

Altira Macau 4Q Results

For the quarter ended December 31, 2010, net revenue at Altira Macau was US\$245.1 million versus US\$132.7 million in the quarter ended December 31, 2009. Altira Macau generated Adjusted EBITDA of US\$46.4 million in the fourth quarter of 2010 compared with an Adjusted EBITDA loss of US\$14.0 million in the fourth quarter of 2009. A year-over-year increase in gaming volume and a return to a normal rolling chip hold percentage drove the improvements in net revenue and Adjusted EBITDA.

Rolling chip volume totaled US\$11.4 billion in the fourth quarter of 2010 versus US\$8.9 billion in the fourth quarter of 2009. In the fourth quarter of 2010, the rolling chip hold percentage was 2.9%, as compared to 2.3% for the same period a year ago. The expected rolling chip hold percentage range is 2.7%-3.0%.

In the mass market (non rolling chip) table games segment, drop totaled US\$132.5 million in the fourth quarter of 2010, up 98% from US\$67.0 million generated in the comparable period in 2009. The mass market win rate was 14.7% in the fourth quarter of 2010 compared with 18.8% in the fourth quarter of last year. At Altira Macau, we expect our mass market table games hold percentage to range from 15.0%-17.0%.

Total non-gaming revenue at Altira Macau in the fourth quarter of 2010 was US\$7.6 million, down slightly from US\$7.7 million in the fourth quarter of 2009. Occupancy per available room in the fourth quarter of 2010 was 97% and the ADR was US\$170 per occupied room. This compares with occupancy and ADR of 94% and US\$196, respectively, in the fourth quarter of 2009.

Mocha Clubs 4Q Results

Net revenue from Mocha Clubs totaled US\$30.6 million in the fourth quarter of 2010, up from US\$25.0 million in the fourth quarter of 2009. Mocha Clubs generated US\$8.6 million of Adjusted EBITDA in the fourth quarter of 2010, which compares with US\$6.2 million in the fourth quarter of 2009.

The number of gaming machines in operation at the Mocha Clubs averaged approximately 1,600 in the fourth quarters of 2010 and 2009. The net win per gaming machine per day was US\$208 in the quarter ended December 31, 2010, as compared with US\$174 in the same period in 2009.

Other Factors Affecting Earnings

Total non-operating expense for the fourth quarter of 2010 was US\$29.9 million, which included US\$27.9 million in net interest expense and other finance costs of US\$4.1 million. There was no capitalized interest during the fourth quarter of 2010.

Depreciation and amortization costs of US\$82.9 million were recorded in the fourth quarter of 2010, of which US\$14.3 million was related to the amortization of our gaming sub-concession and US\$4.9 million was related to the amortization of land use rights. The year-over-year increase in depreciation and amortization costs is primarily related to the opening of The House of Dancing Water in the third quarter of 2010.

Financial Position and Capital Expenditure

Cash and cash equivalents as of December 31, 2010 totaled US\$609.2 million, including US\$167.3 million of restricted cash. Total debt at the end of the fourth quarter of 2010 was US\$1.84 billion, and total net debt to shareholders' equity as of December 31, 2010 was 49%.

Capital expenditures for the fourth quarter of 2010 were US\$34.2 million, primarily attributable to various projects at City of Dreams and Altira Macau.

Full Year 2010 Results

For the twelve months ending December 31, 2010, Melco Crown Entertainment reported net revenue of US\$2.6 billion versus US\$1.3 billion in the twelve months ending December 31, 2009. Adjusted EBITDA for the twelve months of 2010 was US\$430.4 million, as compared with Adjusted EBITDA of US\$55.8 million in the twelve months of 2009.

The year-over-year improvement in net revenue and Adjusted EBITDA were primarily attributable to significantly improved operating results at both City of Dreams and Altira Macau, as well as from the opening of City of Dreams in June of 2009 and its contribution to results for the entire twelve months of 2010.

Melco Crown Entertainment reported a net loss of US\$10.5 million for the twelve months of 2010 compared to a net loss of US\$308.5 million for the twelve months of 2009. The net loss per ADS for the twelve month period ending December 31, 2010 was US\$0.02 compared to a net loss per ADS of US\$0.63 for the same period in 2009.

Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. In some cases, forward-looking statements can be identified by words or phrases such as “may,” “will,” “expect,” “anticipate,” “target,” “aim,” “estimate,” “intend,” “plan,” “believe,” “potential,” “continue,” “is/are likely to” or other similar expressions. Melco Crown Entertainment Limited (the “Company”) may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission, in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about the Company’s beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: growth of the gaming market and visitation in Macau; increased competition and other planned casino hotel and resort projects in Macau and elsewhere in Asia; the completion of infrastructure projects in Macau; government regulation of the casino industry; our ability to raise additional financing; the formal grant of occupancy permits for areas of City of Dreams undergoing construction and/or development; our anticipated growth strategies; and our future business development, results of operations and financial condition. Further information regarding these and other risks is included in our Annual Report on Form 20-F filed on March 31, 2010 and other documents filed with the Securities and Exchange Commission. The Company does not undertake any obligation to update any forward-looking statement, except as required under applicable law. All information provided in this press release is as of the date of this release, and the Company undertakes no duty to update such information, except as required under applicable law.

Non-GAAP Financial Measures

- (1) “Adjusted EBITDA” is earnings before interest, taxes, depreciation, amortization, pre-opening costs, property charges and other, share-based compensation costs, and other non-operating income and expenses. “Adjusted property EBITDA” is earnings before interest, taxes, depreciation, amortization, pre-opening costs, property charges and other, share-based compensation costs, corporate and other expenses and other non-operating income and expenses. Adjusted EBITDA and adjusted property EBITDA are presented exclusively as a supplemental disclosure because management believes that they are widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses adjusted EBITDA and adjusted property EBITDA as measures of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors. The Company also presents adjusted EBITDA and adjusted property EBITDA because they are used by some investors as ways to measure a company’s ability to incur and service debt, make capital expenditures, and meet working capital requirements. Gaming companies have historically reported adjusted EBITDA and adjusted property EBITDA as supplements to financial measures in accordance with U.S. generally accepted accounting principles (“GAAP”). However, adjusted EBITDA and adjusted property EBITDA should not be considered as alternatives to operating income as indicators of the Company’s performance, as alternatives to cash flows from operating activities as measures of liquidity, or as alternatives to any other measure determined in accordance with GAAP. Unlike net income, adjusted EBITDA and adjusted property EBITDA do not include depreciation and amortization or interest expense and therefore do not reflect current or future capital expenditures or the cost of capital. The Company compensates for these limitations by using adjusted EBITDA and adjusted property EBITDA as only two of several comparative tools,

together with GAAP measurements, to assist in the evaluation of operating performance. Such GAAP measurements include operating income (loss), net income (loss), cash flows from operations and cash flow data. The Company has significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, taxes and other non-recurring charges, which are not reflected in adjusted EBITDA or adjusted property EBITDA. Also, the Company's calculation of adjusted EBITDA and adjusted property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of adjusted EBITDA and adjusted property EBITDA with the most comparable financial measures calculated and presented in accordance with GAAP are provided herein immediately following the financial statements included in this press release.

- (2) "Adjusted net (loss) income" is net (loss) income before pre-opening costs, property charges and other. Adjusted net (loss) income and adjusted net (loss) income per share ("EPS") are presented as supplemental disclosures because management believes that they are widely used to measure the performance, and as a basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to income and EPS computed in accordance with GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net (loss) income may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of adjusted net (loss) income with the most comparable financial measures calculated and presented in accordance with GAAP are provided herein immediately following the financial statements included in this press release.

About Melco Crown Entertainment Limited

Melco Crown Entertainment Limited (the "Company"), is a developer, owner and through a Macau subsidiary which holds a gaming sub-concession, an operator of casino gaming and entertainment casino resort facilities. The Company currently operates Altira Macau (www.altiramacau.com) (formerly Crown Macau), a casino hotel located at Taipa, Macau and City of Dreams (www.cityofdreamsmacau.com), an integrated urban casino resort located in Cotai, Macau. The Company's business also includes the Mocha Clubs (www.mochaclubs.com), which feature a total of approximately 1,600 gaming machines in eight locations and comprise the largest non-casino based operations of electronic gaming machines in Macau. For more information about the Company, please visit www.melco-crown.com.

The Company has strong support from both of its major shareholders, Melco International Development Limited ("Melco") and Crown Limited ("Crown"). Melco is a listed company on the Hong Kong Stock Exchange and is substantially owned and led by Mr. Lawrence Ho, who is Co-Chairman, a Director and the CEO of the Company. Crown is a top-50 company listed on the Australian Stock Exchange and led by Executive Chairman Mr. James Packer, who is also Co-Chairman and a Director of the Company.
