REASONS FOR AND BENEFITS OF THE TRANSACTION

The Directors believe that the terms of the Transaction are fair and reasonable and in the interests of shareholders as a whole.

The Company, while currently solely focused on Macau, actively evaluates future expansion opportunities throughout Asia, particularly given the region's expected economic growth and further development of its leisure and tourism industries. Asia is widely regarded as the fastest-growing gaming region in the world, as evidenced by the size and growth of Macau's gaming market.

The success of Macau as a gaming and entertainment destination has led to the proliferation of gaming across the Asia Pacific region, driving the development of casino, hotel, entertainment and retail resorts, as recently illustrated in Singapore.

The Philippines is a popular tourist destination in Southeast Asia and is closely located to a range of important tourism markets, including South Korea, Taiwan, Japan and China. In 2011, the Philippines Department of Tourism recorded 3.9 million visiting tourists. While South Koreans and Americans are the largest tourist groups, China continues to contribute a greater share of visitors to the Philippines.

The expansion into new jurisdictions where the Company expects strong returns on capital will further diversify the Company's exposure in Asia, delivering incremental sources of earnings and cash flow and providing the Company with a larger platform for further expansion and opportunities to drive shareholder value.

The Company considers its experience in developing world-class integrated resorts such as the City of Dreams in Macau will allow it to take advantage of the anticipated growth in the leisure and tourism industries in the Philippines, which will cater to an increasingly affluent and growing Asian middle class who continue to seeking new travel destinations and experiences.

The right business partners are a key element to ensuring the Company's success in the Philippines. The Philippine Parties have significant development, tourism, gaming and leisure experience and this together with their local knowledge will benefit the Company and its shareholders in this exciting new business venture.
