## EXCHANGE RATE INFORMATION

The majority of our current revenues are denominated in H.K. dollars, while our current expenses are denominated predominantly in Patacas and H.K. dollars, and in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. The non-financial pages of this quarterly report include all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars at a rate of HK\$7.7500 to US\$1.00, unless otherwise noted.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on September 30, 2020 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.7500 to US\$1.00. On November 20, 2020, the noon buying rate was HK\$7.7525 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Pataca to U.S. dollar in the non-financial pages of this quarterly report were made at the exchange rate of MOP7.9825 = US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

## FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2019. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

### Summary of Financial Results

For the third quarter of 2020, our total operating revenues were US\$0.17 billion, a decrease of 87.2% from US\$1.30 billion of total operating revenues for the third quarter of 2019. The decrease in total operating revenues was primarily attributable to softer performance in all gaming segments and non-gaming operations at City of Dreams and Altira Macau, as well as decreased casino revenues generated from the operations of Studio City Casino by our subsidiary, Melco Resorts Macau, the gaming subconcessionaire, as a result of the COVID-19 pandemic, which resulted in a significant decline in inbound tourism in the third quarter of 2020. Net income/loss from Studio City Casino gaming operations are reimbursed to/from Studio City Entertainment pursuant to the Services and Right to Use Arrangements. Such reimbursement is included in general and administrative expenses.

Net loss for the third quarter of 2020 was US\$203.4 million, compared to net income of US\$93.0 million for the third quarter of 2019. The decrease in profitability was primarily attributable to softer performance at City of Dreams and Altira Macau mentioned above and higher interest expenses, partially offset by net foreign exchange gains in the third quarter of 2020.

The following summarizes the results of our operations:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2020	2019	2020	2019
	(In thousands of US\$)

For the quarter ended September 30, 2020, total operating revenues at Altira Macau were US\$11.0 million, compared to US\$114.1 million in the third quarter of 2019. The decrease in total operating revenues was primarily a result of softer performance in all gaming segments.

Gaming machine handle for the third quarter of 2020 was US\$279.6 million, compared with US\$633.6 million in the third quarter of 2019. The gaming machine win rate was 4.0% in the third quarter of 2020, versus 4.7% in the third quarter of 2019.

### **Other Factors Affecting Third Quarter Earnings**

Total net non-operating expenses for the third quarter of 2020 were US\$43.8 million, which mainly included interest expenses of US\$51.3 million, partially offset by net foreign exchange gains of US\$9.2 million, compared to total net non-operating expenses of US\$57.7 million for the third quarter of 2019, which mainly included interest expenses of US\$36.8 million and net foreign exchange losses of US\$20.5 million.

### **Nine Months' Results**

For the nine months ended September 30, 2020, our total operating revenues were US\$1.07 billion, a decrease of 71.9% from US\$3.82 billion for the nine months ended September 30, 2019. The decrease in total operating revenues was primarily attributable to softer performance in all gaming segments and non-gaming operations at City of Dreams and Altira Macau, as well as decreased casino revenues generated from the operations of Studio City Casino by our subsidiary, Melco Resorts Macau, the gaming subconcessionaire, as a result of the COVID-19 pandemic, which resulted in temporary casino closures and a significant decline in inbound tourism in the nine months ended September 30, 2020.

Net loss for the nine months ended September 30, 2020 was US\$570.2 million, compared to net income of US\$337.7 million in the comparable period of 2019. The decrease in profitability was primarily attributable to softer performance at City of Dreams and Altira Macau mentioned above, and higher interest expenses in the nine months ended September 30, 2020.

### **Liquidity and Capital Resources**

We have relied and intend to rely on cash generated from our operations and debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be. We expect to have significant capital expenditures in the future as we continue to develop our properties. Any other future developments may be subject to further financing and a number of other factors, many of which are beyond our control.

## [Table of Contents](#)

### Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable related to VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage, and entertainment that are conducted primarily on a cash basis.

Net cash used in operating activities was US\$162.9 million for the third quarter of 2020, compared to net cash provided by operating activities of US\$171.6 million for the third quarter of 2019. Net cash used in operating activities was US\$748.8 million for the nine months ended September 30, 2020, compared to net cash provided by operating activities of US\$290.1 million for the nine months ended September 30, 2019. Both changes were primarily due to the softer performance of operations as described in the foregoing sections.

### Investing Activities

Net cash used in investing activities was US\$165.9 million for the third quarter of 2020, compared to net cash used in investing activities of US\$55.7 million for the third quarter of 2019. The change was primarily due to the placement of a bank deposit with an original maturity over three months, partially offset by repayments of funds to affiliated companies and lower capital expenditure payments during the third quarter of 2020.

Net cash used in investing activities of US\$165.9 million for the third quarter of 2020 mainly included the placement of a bank deposit with an original maturity over three months of US\$150.0 million and capital expenditure payments of US\$40.2 million, partially offset by repayments of funds to affiliated companies of US\$24.4 million.

Net cash used in investing activities of US\$55.7 million for the third quarter of 2019 mainly included capital expenditure payments of US\$56.4 million.

## [Table of Contents](#)

Our total capital expenditure payments for the third quarter of 2020 were US\$40.2 million, compared to US\$56.4 million for the third quarter of 2019. Such capital expenditures for both periods were mainly associated with our development projects as well as enhancements to our integrated resort offerings.

Net cash provided by investing activities was US\$121.3 million for the nine months ended September 30, 2020, compared to net cash used in investing activities of US\$725.8 million for the nine months ended September 30, 2019. The change was primarily due to repayments of funds to affiliated companies in the nine months ended September 30, 2020 as compared to funds to an affiliated company in the nine months ended September 30, 2019.

Net cash provided by investing activities of US\$121.3 million for the nine months ended September 30, 2020 mainly included repayments of funds to affiliated companies of US\$391.6 million, partially offset by placement of a bank deposit with an original maturity over three months of US\$150.0 million and capital expenditure payments of US\$120.3 million.

## Recent Developments

The COVID-19 outbreak continues to have a material effect on our operations, financial position, and prospects during the fourth quarter of 2020.

Commencing from July 15, 2020, certain travelers entering Guangdong from Macau were no longer subject to mandatory quarantine, while from August 12, 2020, those entering China from Macau were generally no longer subject to mandatory quarantine. On August 26, 2020, the Chinese authorities resumed the issuance of IVS visas for Guangdong residents, while the nationwide resumption of IVS visa issuance commenced on September 23, 2020. Despite these developments, our operations continue to be impacted by significant travel bans, restrictions, and quarantine requirements imposed by the governments in Macau, Hong Kong, and certain provinces in China on visitors traveling to and from Macau, and such bans, restrictions and requirements have been, and may continue to be, modified by the relevant authorities from time to time as COVID-19 developments unfold. Additionally, health-related precautionary measures remain in place at our properties in Macau, which could continue to impact visitation and customer spending.

As the disruptions from the COVID-19 outbreak are ongoing, any recovery from such disruptions will depend on future developments, such as the duration of travel and visa restrictions and customer sentiment and behavior, including the length of time before customers resume traveling and participating in entertainment and leisure activities at high-density venues and the impact of potential higher unemployment rates, declines in income levels and loss of personal wealth resulting from the COVID-19 outbreak on consumer behavior related to discretionary spending and traveling, all of which are highly uncertain.
